Sub: Comment on 'Allocation of Spectrum for Technologies such as DECT to meet the Residential and Enterprise Inter-Telecommunication Requirements.

Dear Sir,

Panasonic fully support the proposal for allocation of spectrum for DECT Technologies to meet the Residential and Enterprise Intra-Telecommunication Requirement

Panasonic, which is the leading manufacturer of cordless phones provide Phones that are easy to use, convenient, and environmentally friendly. Panasonic product quality is assured by a unique quality control system that is based on some of the world's most stringent standards. In addition to performance, these standards include: universal design - to enable ease of product use; unique technologies - for an exciting user experience; and ecological principles, so our products do not harm the environment.

Panasonic believes that the Indian market and the end user will only benefit from the introduction of DECT Technology.

Thank you very much  
Best Regards

  
Amod Kumar  
Business Head
