Subject: Comments on trai Consultation Paper No. 5/2015
To: kapilhanda@traigov.in

Dear Sir,

I have gone through the paper and instead of replying point wise in the consultation paper, I am giving my views as under :

1. Kindly declare the Optical Fibre Network as National Infrastructure similar to National Highways and other roads to bring down & save the Capex and Opex. This will benefit the end customers on tariffs.
2. Kindly incorporate the guidelines of This network in the DPR of all Projects including Residential Buildings , Commercial Buildings & Industrial Buildings.

--

With Regards
CA.Satyendra Thakur
