Respected sir(s),

I am appreciating your noble idea to take opinion/ suggestion for the aforesaid subject.

My humble request you to consider my suggestion

(1) *Before entering of the DTH* Technology; all Nation have **Free channel service of Doordarshan**

But now without any recharge of account , all DTH operator stop their all services

I strongly oppose such kind of services. At least Government should keep in his mind that All lower middle class of nation is not be able to pay even their DTH Service payment regularly, so at least During the zero balance or in case of non recharging account common person should be able to connect to Doordarshan for getting news and special advertisement of Government of India and State government (like natural calamity like uttarakhand, WAR, Riots, Urgency)

Your Sincerely,
Kaushal R. Barot
