Subject -IUC charges discontinuation request

We are badly impacted with new government policy on IUC charges imposed by TRAI. At this era of telecom freedom such Restriction is not seems justified and not in favours of any telecom user.

We are moving in new devolved India and such stiction is really putting questions on our telecom freedom world.

We request you to pls consider our request and remove this guideline so that we can also enjoy telecom freedom and can talk our family and friends as we were doing earlier.

I hope you will consider our request and will do the needful.
